HONORARY DEGREE RECIPIENTS

Honorary Doctor of Science Degree

Dr. Robert E. Grulich
Brussels, Belgium

Robert E. Grulich received his Bachelor's (1964) and Master's (1967) degrees in chemistry from the State University of New York at Oswego.

Presently he is Director of Brussels Administration/European Operations of Bristol-Myers Squibb International Corporation. Following a short but enjoyable teaching career, he joined Bristol-Myers as a chemist in the emerging discipline of Nuclear Magnetic Resonance Spectroscopy (NMR). Over the next 15 years, Mr. Grulich's managerial responsibility increased, culminating in the supervision of an elite team of scientists dedicated to solving chemical production problems. It was at this time that he pioneered chemical process improvement techniques utilizing low temperature NMR experiments to literally "stop" chemical reactions in order to manipulate the multiple of chemical and physical variables involved in complex chemical process reactions.

Realizing that the business of the pharmaceutical industry entailed much more than solving complex chemical problems, Mr. Grulich pursued an MBA degree from Syracuse University in the early 1980's that led to another new discipline in the pharmaceutical industry, that of Project Management. Soon the entire cycle from drug discovery through drug registration, culminating in market launch, became second nature, and people rather than chemicals became the focus of a new career. In 1989, he was chosen from project management colleagues around the world to chair the Pharmaceutical Tract of the Project Management Institute.

Following the 1989 merger of Bristol-Myers and E.R. Squibb, Robert was given responsibility for the coordination of Medical Development activities encompassing the United States, Europe, and Latin America. In 1993, Mr. Grulich was selected to direct the Brussels, Belgium clinical operations facility of Bristol Myers-Squibb, where a staff of over 190 clinical scientists, including MD's, statisticians, and regulatory experts, conduct clinical trials throughout Europe, coordinating their work with satellite offices in seven major European centers. This involves working with 15 countries with a variety of cultures and linguistic traditions.

Recently, Mr. Grulich has begun to work in Eastern Europe. He states, "Our next challenge is Eastern Europe, where an enormous opportunity awaits, but where there are so many internal problems to be solved, the issues that we face in Western Europe are insignificant by comparison. This past year, I have traveled to Budapest, Prague, Warsaw, and Moscow establishing business contacts, setting up warehouses for supply distribution, and in general, trying to determine what lies ahead in the pharmaceutical business in countries full of eager and willing people, but without, in many instances, even the simplest of services to support their efforts."

Honorary Doctor of Humane Letters Degree

Dr. Heraldo Munoz
Brasilia, Brazil

Dr. Heraldo Munoz, SUNY Oswego Class of 1972, a citizen of Chile, is presently the Chilean ambassador to Brazil. He is recognized throughout the Western Hemisphere as a skilled diplomat, prolific author, insightful scholar, and untiring advocate of democracy and human rights in Latin America.

Twenty years before multiculturalism and diversity were priorities on American campuses, Chilean-born Heraldo Munoz was actively promoting these concepts as an undergraduate student at SUNY Oswego. In the early 1970s, he was a vital force behind the college's new Latin Student Union. He was also an outstanding student of political science and was determined to gain the maximum benefits from his Oswego education, which was funded by a scholarship from the United States government.

Dr. Munoz has extensive experience as a practicing diplomat and distinguished scholar. His academic record is stellar: after receiving a Bachelor's degree in political science from SUNY Oswego, he earned his Doctorate and Master's degree in international relations from the University of Denver. Despite offers from prestigious American and European universities, he returned to Chile — and to a very volatile political climate — to engage in the mobilization for democracy and to teach at the Institute of International Affairs at the University of Chile. His expertise, however, continued to be sought by outstanding universities, and he has enjoyed visiting scholar status or lectured at such institutions as the Brookings Institution, Columbia University, and the University of Southern California in Los Angeles.

Dr. Munoz is the author or editor of more than 20 books and numerous scholarly articles. He has been quoted extensively in publications in both North and South America, including the Washington Post, Miami Herald and Los Angeles Times, and has appeared on CNN. His areas of expertise include U.S. foreign policy toward Latin America, Latin American and Caribbean foreign relations, international trade and the environment.

International recognition of Dr. Munoz has grown dramatically since 1990, when he was named Chilean ambassador to the Organization of American States (OAS). Dr. Munoz has played a major role in enlarging the scope of the OAS to include the resolution of violent conflict and the preservation of democracy in the Western Hemisphere. Most recently, he was an active negotiator in the peace talks to resolve the Peru-Ecuador conflict. In 1994, Dr. Munoz received the Oswego Alumni Association Distinguished Alumnus Award in recognition of his extraordinary career.

Honorary Doctor of Humane Letters Degree

Dr. Lionel R. "Skip" Meno
Orchard Park, New York

Dr. Lionel R. "Skip" Meno, an alumnus of the State University of New York at Oswego, is a visionary leader who is impacting the educational establishment in a way that few can match.

Dr. Meno earned his Bachelor of Arts degree in geography from Colgate University, his Masters in Education and Certificate of Advanced Study in Educational Administration from SUNY Oswego, and his Ed.D. from the University of Rochester. In his twenty-three years as an educator, Dr. Meno served the City of Syracuse as a teacher/team leader, curriculum specialist, deputy superintendent, and superintendent. He served the State of New York as Deputy Commissioner of Education and the State of Texas as Commissioner of Education. Early in his career he was a coordinator at Rensselaer-Columbia-Green BOCES; today he is District Superintendent at Erie 2-Chautauqua-Cattaraugus BOCES.

Dr. Meno's extraordinary vision is one of equity of educational outcomes for all children. He believes that equal educational opportunity is insufficient; rather the school district and the state are responsible for ensuring that all students learn and achieve. He speaks of two non-negotiables in schooling: the student and the results. Meno argues that schools may not choose their clients; the students who attend are non-negotiable. Similarly, he says, schools may not choose the standards of excellence to be achieved by the students; these are set, either explicitly or implicitly, by society. According to Meno, the negotiable arenas are program, time frames and learning activities. He was among the most unusual State Education Department bureaucrats in a position of power in both New York and Texas who was willing to waive every and all state regulations in the interest of innovation and reform. However, in return, Meno insists on the measurement of results and accountability for student outcomes.

As a talented educational administrator, Meno has the ability to manipulate both the hard and soft sides of administration to achieve these desirable ends. Meno's expertise in school finance is highly regarded. His dissertation at the University of Rochester suggests new models to support fiscal educational reform and equity, and he has put these ideas to use in his various educational leadership roles.

Another Meno talent is politics. He understands the political process and works with stakeholders of all relevant groups to identify and achieve a consensus around educational issues. He recognizes the talents of other educators, identifies a management team that is diverse, dynamic and creative, and actively supports the career growth of women and minorities.

COLLEGE HONORS PROGRAM

The SUNY Oswego College Honors Program consists of a core of courses in the social sciences, humanities, natural sciences, philosophy, and history designed to stimulate students' intellectual growth and develop their analytical abilities. Unlike traditional courses, which present material from a single field of study, Honors Program courses are multi-disciplinary, drawing ideas and information from many fields and addressing concerns common to all the disciplines. In addition to Honors core requirements and all the requirements in their majors, Honors Program students must also meet requirements in a laboratory science and a foreign language and complete a Senior Honors Thesis, in which they explore a topic in some depth. The following students from this class have successfully met all the requirements for the SUNY Oswego College Honors Program.

Rebecca L. Brower
Neal Allan Carlson
Hillary Jane Collyer

Andrew C. Toulas
Jennifer Marie Greenberg
Jennifer Joan Neifer

Erik Raymond Ruggieri
Walter John Toner IV
Luke Kelly Walsh

HONORS PROGRAMS

Honors Programs have been instituted for outstanding students in the fields of chemistry, economics, history, mathematics, meteorology, physics, and psychology. The eligibility requirements for these programs are rigorous and the coursework itself is beyond the scope of that of regular classes. The following students from this class have completed an Honors Program.

Michael Philip Anthony – Economics and History
Andrea Lynn Dottolo – Psychology
Denise Tracy Jolly – Psychology
Tanya Jennifer Lane – Psychology

Kristina Marie Maurizio – Chemistry
Stephen Christopher Nedell – History
Abid M. Patwa – Physics

MILITARY SCIENCE

The following undergraduate students from this class have completed the prescribed course of study in Military Science at the State University of New York at Oswego and have been or will be commissioned by the President of the United States as Second Lieutenants, United States Army. Those students who met the criteria for Distinguished Military Student (DMS) will graduate with departmental honors as Distinguished Military Graduates (DMG).

THE SEAL

The seal displayed on the backdrop was designed by John W. Mincher, professor emeritus of the Theatre Department, for the inauguration of Oswego's ninth president. Gracing the center of the seal is the symbolic torch which traditionally represents the light of learning. The Seal was donated to the College by Professor and Mrs. Mincher.

THE ACADEMIC PROCESSION

The centuries-old pageantry of the academic procession dates from ancient traditions rooted in the early universities. Since the clergy were in charge of the first academic ceremonies, they followed the familiar order of religious processions.

THE MEDALLION

The medallion worn by the president of the State University of New York at Oswego, is a symbol of authority worn at all official ceremonies such as Commencement and Honors Convocation. Oswego is represented in the perfect center of the medallion by a tiny green and gold circle. The dot is properly located on an outline of New York State, and the State itself is surmounted over a globe, thus showing the relationship of the institution to both New York and the world.

A wreath of gold leaves surrounds the globe and is circled by a flat band bearing the engraved college name, and includes two dates: 1861, the college founding and 1948, marking the founding of the State University of which Oswego was a charter unit.

Above the medallion is a gold lamp of knowledge, emblematic of a seat of learning.

The medallion was designed and executed by Professor Dominic DiPasquale, formerly of the Art Department.

THE MACE

In medieval times the mace was used as a weapon of offense and the metal head was often heavily spiked. Today it is used chiefly in ceremonial functions of churches, governments, colleges and universities. The head of the Oswego mace holds a jade sphere symbolizing the university of wisdom and knowledge, surrounded by four silver flanges unfolding petal-like without imprisoning the sphere and representing the potentiality of disciplined imagination, the goal of higher education. The richness of the jade and the rosewood shaft are emblematic of the pomp and solemnity of academic ceremony.

A gift of the Class of 1969, the mace design and silver work was executed by Professor Joseph F. Shoенfelt, formerly of the Art Department, and the rosewood turning by Professor Emeritus William D. Todd, Technology Department.

THE TRADITION OF ACADEMIC ATTIRE

The caps, gowns and hoods worn at college and university functions date from the Middle Ages. Monks and students of that time wore them to keep warm in the damp, drafty halls of learning. From these practical origins they have developed into the accepted garb which symbolizes scholarly achievement.

Baccalaureate gowns have a long, pleated front with shirring across the shoulders and back. They are primarily distinguished by flowing sleeves pointed at the fingertips. These gowns may be worn open or closed.

The master's gown is worn open and the sleeve is cut so that the forearm comes through a slit just above the elbow.

Gowns for the doctorate are also worn open. They carry broad, velvet panels down the front and the three velvet bars on the full, round sleeves. This velvet trimming may be either black or the color distinctive of the degree. Mortarboards or caps worn with baccalaureate and master's gowns generally have black tassels. The tassel of the doctoral cap is usually made of gold bullion.

The hood gives color and meaning to the academic costume. Its silk lining bears the color of the institution conferring the degree. The hood is bordered with velvet of a prescribed width and color to indicate the field of learning to which the degree pertains.

Hail
OSWEGO

Voices fill the air

Singing reverently

Pledging our school fair

Truth and loyalty

This our song we raise

In her name and praise

Oswego, Alma Mater

Hail to thee!
